

Waterstop Hydro-Stopper

85,00 € incl. IVA

- Stops water inflow in case of leakage
- Small amounts of dripping water are recognized by the sensor (waterfilm from 0,5mm) and the water inflow is stopped immediately
- Mounting at the angle valve under the sink
- Use with VARIO-HP, DUO-HP
- Operated with battery, duration up to 4 years, since very small energy consumption
- Battery change dates are determined by functional tests
